## 1. Qualitative Information on Financial Results for the Current Quarter

### (1) Description of Operating Results

With regard to the global economy in the first quarter of the current fiscal year, we have seen supply chains impacted by lockdowns in some regions due to the spread of COVID-19 pandemic, surging prices of natural resources due to heightened geopolitical risks, rises in the policy interest rates, mainly in the United States and Europe, and the impact of fluctuations in exchange rates. In the electronics industry, where the Tokyo Electron (TEL) Group operates, semiconductor production equipment market is expected to grow in medium- to long-term due to the growing importance of semiconductors, driven by the transition to a data society due to the expansion of communications technologies and efforts toward realizing a decarbonized society.

Under these circumstances, the consolidated financial results (cumulative) for the first quarter of the current fiscal year were net sales of 473,654 million yen (year-on-year growth of 4.8%), operating income of 117,519 million yen (year-on-year decrease of 17.1%), ordinary income of 117,692 million yen (year-on-year decrease of 17.5%), and net income attributable to owners of parent of 88,095 million yen (year-on-year decrease of 12.2%).

The overview of each business segment is as described below.

#### (i) Semiconductor Production Equipment

Capital investment in semiconductors for logic/foundry has been made in a wide range of areas, from cutting-edge to mature generations of semiconductors, driven by the digitalization of society. Additionally, capital investments in both DRAM and NAND flash memory remained steady. Consequently, net sales to external customers in this segment for the first quarter of the current fiscal year were 464,003 million yen (year-on-year growth of 6.0%).

#### (ii) Flat Panel Display (FPD) Production Equipment

As capital investment for large-sized LCD panels for televisions has run its course, the overall manufacturing equipment market for FPD TFT arrays has slowed. Meanwhile, capital investments in small and medium-sized OLED panels continue in conjunction with displays installed in end products being converted from LCD panels to OLED panels. Consequently, net sales to external customers in this segment for the first quarter of the current fiscal year were 9,614 million yen (year-on-year decrease of 31.8%).

#### (iii) Other

Net sales to external customers in this segment for the first quarter of the current fiscal year were 36 million yen (year-on-year growth of 2.4%).

Note: Intersegment sales or transfers are eliminated.

**(2) Description of Financial Conditions**

Current assets at the end of the first quarter of the current fiscal year were 1,359,969 million yen, a decrease of 48,734 million yen compared to the end of the previous fiscal year. This was mainly due to a decrease of 79,273 million yen in prepaid consumption tax, a decrease of 51,999 million yen in short-term investments included in securities, and an increase of 83,361 million yen in inventories.

Tangible fixed assets increased by 15,264 million yen from the end of the previous fiscal year, to 238,342 million yen. Intangible fixed assets increased by 2,062 million yen from the end of the previous fiscal year, to 24,603 million yen. Investments and other assets decreased by 16,139 million yen from the end of the previous fiscal year, to 223,996 million yen.

As a result, total assets decreased by 47,546 million yen from the end of the previous fiscal year, to 1,846,911 million yen.

Current liabilities decreased by 18,663 million yen from the end of the previous fiscal year, to 449,915 million yen. This was largely due to a decrease of 70,284 million yen in income taxes payable, and an increase of 52,674 million yen in customer advances.

Long-term liabilities increased by 3,318 million yen from the end of the previous fiscal year, to 82,147 million yen.

Net assets decreased by 32,201 million yen from the end of the previous fiscal year, to 1,314,847 million yen. This was largely due to a decrease resulting from the payment of 118,833 million yen in year-end dividends for the previous fiscal year, and an increase of 88,095 million yen resulting from recording net income attributable to owners of parent.

As a result, the equity ratio was 70.4%.

**(3) Description of Cash Flows**

Cash and cash equivalents at the end of the first quarter of the current fiscal year decreased by 56,788 million yen compared to the end of the previous fiscal year, to 278,859 million yen. The combined balance including 35,742 million yen in time deposits and short-term investments with maturities of more than three months that are not included in cash and cash equivalents was 314,601 million yen, a decrease of 56,672 million yen from the end of the previous fiscal year. The overall situation regarding cash flows during the first quarter of the current fiscal year was as described below.

Cash flows from operating activities were positive 69,987 million yen, a decrease of 41,301 million yen compared to the same period of the previous fiscal year. The major positive factors were 117,642 million yen in income before income taxes, a 79,408 million yen decrease in prepaid consumption tax, and a 51,500 million yen increase in customer advances. The major negative factors were 100,865 million yen in payment of income taxes, and a 75,364 million yen increase in inventories.

Cash flows from investing activities were negative 16,667 million yen compared to negative 10,762 million yen in the same period of the previous fiscal year. This was largely due to the payment of 13,405 million yen for the purchase of tangible fixed assets.

Cash flows from financing activities were negative 119,150 million yen compared to negative 65,981 million yen in the same period of the previous fiscal year. This was largely due to the payment of 118,833 million yen in dividends.

**(4) Description of Financial Estimates Information such as Consolidated Financial Forecasts**

There are no changes in the consolidated financial forecast for the fiscal year ending March 31, 2023 from the forecasts released at the time of the previous announcement on May 12, 2022.

Note: The financial forecasts and estimates stated in this Summary of Consolidated Financial Results are based on certain assumptions judged to be reasonable by the Company in light of information currently available concerning economic conditions in Japan and overseas, fluctuations in foreign exchange rates, and other factors that may have an impact on performance. The company does not promise that the forecasts or estimates will be accurate.

They are therefore susceptible to the impact of many uncertainties, including market conditions, competition, the launching of new products (and their success or failure), and global conditions in the semiconductor related industry. Consequently, actual sales and profits may differ substantially from the projections described in this Summary of Consolidated Financial Results.

**Changes in accounting policies, changes in accounting estimates and restatements: None**

## Segment information

### (i) General information about reportable segments

A reportable segment is a component or an aggregated component of TEL Group. For each of the components, discrete financial information is available and the operating result is regularly reviewed by management to make decisions about resources to be allocated to the segment and assess its performance.

The operation of TEL Group consists of segments by products and services based on business units (BUs), and TEL Group identifies as a reportable segment, "semiconductor production equipment (SPE)" and "flat panel display (FPD) production equipment". Products of the SPE segment consist of coater/developers, etch systems, deposition systems, cleaning systems used in wafer processing, wafer probers used in the wafer testing process and other semiconductor production equipment, such as wafer bonders/debonders. The SPE segment principally develops, manufactures, and sells such products, and provides services related to them. Products of the FPD production equipment segment consist of coater/developers, etch/ash systems used in the manufacture of flat panel displays and inkjet printing systems used in the manufacture of OLED displays. The FPD production equipment segment principally develops, manufactures, and sells such products, and provides services related to them.

### (ii) Net sales and profit or loss in reportable segments

Three months ended June 30, 2022 (April 1, 2022 to June 30, 2022)

(Millions of yen)

	Reportable Segments		Others *1	Total
	Semiconductor Production Equipment	FPD Production Equipment		
Net sales	464,003	9,614	7,953	481,571
Segment profit (loss)	133,596	(615)	170	133,151

	Adjustments *2	Consolidated *3
Net sales	(7,917)	473,654
Segment profit (loss)	(15,508)	117,642

#### Notes:

\*1. "Others" includes all other operating segments which are not included in the reportable segments, including group-wide logistic services, facility maintenance and insurance.

\*2. "Adjustments" for segment profit (loss) totaling (15,508) million yen mainly consists of research and development costs of (6,667) million yen pertaining to the fundamental research and element research of TEL and other general and administrative costs that do not belong to reportable segments.

\*3. Segment profit (loss) is adjusted against income before income taxes in Consolidated Statements of Income.

### (iii) Impairment losses on fixed assets and goodwill, etc. in reportable segments

Significant impairment losses related to fixed assets: None

Significant changes in goodwill amount: None

Significant gains on negative goodwill: None
